DESNUDO

Lahnee's signature experience. Desnudo is an encounter like no other designed to push the boundaries of expression and liberation.

Desnudo is a Spanish word that translates to nude. And we believe the freedom of nudity expands far beyond the simple act of being naked. So, we have created a unique nude dining experience in a liberating environment designed to honour love, creativity, connection, expression and of course, fantastic food.

The purpose of Desnudo is to bring you a safe space to strip away the layers that confine us, literally, and in doing do, explore our authentic selves on a deeper level.

Each dining experience will be curated a little differently from the last or the next. But no matter the theme, you can leave your inhibitions at the door and turn strangers into friends.

Nudity is an act of surrender and Desnudo will explore this vulnerability without the sexual connotation that often goes hand in hand with the naked body.

Here is what you can expect....

A warm (clothed) welcome, a tipple to tantalise the taste buds and deep, thoughtful conversations to stimulate the mind.

A shared meal, cooked lovingly by our revolving chefs and to theme so no meal is ever the same. Activities offered by a diverse range of educators and professionals in their field, designed to establish connection and encourage all to let go while tuning in to their body, mind and surroundings. Plus learn something new.

Activities might include movement & dance, breathwork & meditation, sound healing & crystal work, pleasure & tantric education, yoga, music, poetry, art, life drawing, photography and so much more. Each facilitator and each dinner party will take you on a different journey and you will leave feeling rejuvenated, liberated and energised.
